

INTRODUCING

The industry's first extra small size disposable vaginal specula

Welch Allyn KleenSpec® Disposable Vaginal Speculum and Cordless Illumination System help to increase office efficiency and improve patient safety—*now in every size needed for all types of patients.*

- Now you can perform a comfortable, safe exam with virginal/pediatric patients as well as post-menopausal and post-hysterectomy women—no more referrals or uncomfortable exams using metal specula or the wrong size
- Single-use speculum helps to reduce cross-contamination while eliminating the time and expense of reprocessing metal specs
- The LED cordless illumination system easily fits into every size specula, giving you whiter, brighter light at the exam area
- Never worry about cords getting in your way, breaking or needing to be cleaned during the procedure, speeding the exam and giving you a full range of motion
- No bulb replacement necessary for a reduced cost of ownership
